. Hongkong, October 3rd 1898.

THE Estimates for 1899 embody an interesting programme of public works, but not all of the items are to be commenced during the year. The sum of \$400,000 is the estimated cost of the new Law Courts, but this is one of the works that is to be deferred. No doubt explanations will be given when the Estimates are considered by the Fuance Committee, but we think this is a work which the public would be glad to see commenced at his early a date as may be found feasible, both because the new Law Courts are in themselves desirable and because the building in which the legal work is now conducted is urgently required in order to afford increased accommodation for the Post Office. Another work which is placed on the list for the first time, but which is not to be undertaken at once, is the new Clock Tower, the estimated cost of which is \$30,000, \$27,000 is entered as the estimated cost of purchase of houses for the accommodation of the police at the Central Station, but this also is included in the works not intended to be proceeded with 1899. The Governor's Peak Residence is News. estimated to cost \$75,000, of which \$40,000 is put down as the estimated expenditure in 1899, but as we believe the site is not vet decided upon, and it will probably take Sir HENRY BLAKE some time to make up his mind on that much discussed point, we should think it doubtful whether the work will netually be commenced during the first year of the new Governor's administration. The Powder Magazine of Stonecutters' Island is to be proceeded with, the estimated cost of the work being-850,000, and 825,000 the estimated expenditure in 1899. Work on No. 7 Police Station is also to be proceeded with, the esout of a total estimated cost of \$65,000. Road, Whanchai to Wongneichong, account "-by which is presumably meant the road from Wanchai Gap to Wongneichong Gap-figures for \$30,000 as the estimated cost, the estimated expenditure for 1899 being \$10,000. It is satisfactory to find that this work, which will open up new ing valuable from a military point of view and forming a pleasant walk, is to be proceeded with. There are a number of small er public wirks chargeable to general revenue, of which some are to be completed during the year and others deferred. Redents in the Hill District will no sloubt regret to notice that amongst the latter is the chair shelter at the Peak. Turning to the public works extraordinary chargeab o to Water Amount so find the follow-W ter supply. further proceed with the work in 1899 City of Victoria and Hill District waterworks, estimated cost \$267,000, estimated expenditure to 81st December, 1898, \$184,800, and \$70,000 is provided as the estimated expenditure in 1899. Under the heading of public works chargeable to the loan we find that the estimated cost to the Government of the Praya Reclamation has been increased from \$429,678 to \$478,222 on account of Government undertaking to carry out the work in front of dissenting lotholders' lots. \$362,600 is put down as the estimated expenditure to 31st December, 1898, and \$10,000 is entered as the estimated expenditure for 1899. The estimated cost of the reconstruction of Government piers has been increased from \$100,700 to \$215,000 on account of an iron pier 300 feet long being substituted for a masoury pier 90 feet long opposite Pedder's Streetand boat slip for the Harbour Master's use being provided. The estimated expenditure to the end of the present year is \$90,500, and the estimated expenditure for 1899 860,000. The improved design for Pedder's Wharf will command general approval and it is to be hoped the work may be proceeded with as rapidly as possible. is reported to be in a ferment. The cost of gool extension has been increased from \$96,000 to \$127,000 on account of the construction of worksheds and a new block of cells which were not contemplated under the original scheme. The estimated expenditure to 31st December, 1898, is \$105,000, and a further sum of \$19,700 is provided for 1899. The estimated cost of quarters for the gaol staff has been raised from \$33,000 to \$60,000, and a footnote informs us that this does not include sum of \$50,000 paid for the resumption of inland lot 144 to provide a site for the quarters. The sewerage of Victoria, the estimate for which was \$282,500, is now practically completed, a sum of \$7,000 only remaining to be expended in 1899. There are a few minor items chargeable to the loan, namely, smiscellaneous waterworks 86,000, miscellaneous drainage works \$26,000, and swine depot \$10,000, the total estimated expenditure for 1899 chargeable to the loan being \$183,700. It appears, however, the estimated balance of the loan at the end of the present year is only \$167,775, so that there will be a small deficit on the cost of the works chargeable against it, which will presumably have to be made good from the general revenue, though that does not appear to be provided for in the Estimates. Now that the loan is so nearly exhausted it will soon become a question how the public works of the future are to be provided for : either there will have to he a great; trenchment in the expenditure under this heading (which, in view of the

Wednesday, but still too late at this time of year, when it gets quite dark at 6 p.m. The Regiment began by defending the stable goal. The first period of the game was distinguished by no very brilliant play except one of the Club team who, though he must have well known he was "off-side," preferred to have a smack at the ball and thus penalise his side to a free bit. Woodgate kept the back fully employed and rede him off in a very determined monner. This young player ought to develop into something very useful for the Regiment in no far distant time. Somethinking " Had the time come when the Club team meant to have no more of it?" Yes! determinution was written in each player's face and each slanged the other, the result being that they made a good run down the ground and Lawford on that dashing little pony of his came in at the finish and hit a goal. The score now stood Regiment 3 goals, The Club I goal. This effort seemed to exhaust the Club team, for just afterwards the back, having the misfortane (to use a golf term) to foozle the ball in hitting out No. 3 callantly missed it and gave Molony a chance he was not slow to avail himself of and woul. BY A CORRESPONDENT. The Chinese Anthorities, proceeding with their old, time-honoured tactics, are secretly inciting the natives to resist the foreigner after they find open opposition by themselves useless, caring little how much punishment the ignorant tools of their machinations may suffer so long as they can breed bad blood between the foreigner and those of their subjects who are to of government troublesome.

tively. Appended are details of the play and two more shortly after off the first ball of Mann's delivery. Nothing further was done. however, until the change over, the home eleven fielding too warily for any liberties to be taken by the batsmen. Jackson's second over was upbroken by a ruh, but Mann had three recorded against him in the next over, one by Lowson' and two by Campbell. Jackson was then got away for a couple by the Doster, but Mann, off whom what scoring was recorded had hitherto chiefly been, had better luck next time, and for the first time the scorers marked the welcome big " M" after his name in the book. Two smartly secred by Lowson off Jackson brought the score to 10, at which stage play seemed to get livelier; after 20 minutes play, 20 was posted on the score board, both bowlers being treated with equal freedom by the batamen, especially by Lowson. At 22 Lowson bad the misfortune to "sky" one from Jackson which was easily held by Farbridge, at short slip, and what had stemed a very promising partnership was dissolved a the Doctor made 14 in the most free and easy manner, his score inoluding a couple of good 8-strokes. Laugherne succeeding, play sluckened somewhat, each of the bowlers in succession sending down maiden." At this stage of the game a very pretty piece of fielding by Wallace has to be mentioned, a clover stoppage by him, in slips, of a ball sent away by Campbell off Mann saying at least three runs At 11.45 the board showed 30, and from this on things began to get much livelier. Campbell scoring a three and a four in succession off Mann, who in this particular over had ten runs made off his bowling. After this Mann was replaced by Moule, who was so far successful that Campbell could make nothing off his first over. It was in Jackson's 11th over that 40 was posted, which figure was completed by a magnificent hit for 3 by Langhorne. Jackson's record just previous to this hit was 10 overs, 5 maidens, 10 runs.

The first ball of Monle's next over, however, was an anfortunate one for Langhorne, who was cleverly caught by Farbridge at long stop, the score being 42.2.8. Moberly, the next man in, commenced scoring immediately, and chiefly through his exertions, the total footed to 50 in a very short time after his vent. At 56 Dew replaced Jackson the far end and bowled a maiden over by way of a start, but the change was not otherwise effective; the score went steadily up to 60 and then to 70, until at 79 Jackson, was tried again in place of Monle, who was being protty severely punished by hoth batemen, and Manu went on again in place of Dew, but the defence, especialstanding at 89.3.32. Arthur then joined Campbell, but before an over had been bowled, and without anything being added to the score; Campbell went out l.b.w. having played a splendid stendy game for an hour and 40 minutes. during which he knocked together 32 runs without giving a chance. 89 4.32. Anten succeeded. and about 15 minutes after he went in 100 runs were posted on the telegraph board. At 100 Arton was missed at long stop off Jackson, and at 110 Wallace, who had been doing spleadid service in the field, took up the attack from the far end of the pitch, only however, to be punished to the tune of 11 rone in his opening over. His second essay was more successful. Auton skying the first ball and dropping it right into the hands of Tyack at point, 122.5.26; Leth bridge, going in next, got away with a couple of runs at the entset, but directly afterwards play was suspended in consequence of a rather nasty blow which Arthur received. Tiffin then intervened, at which store the score stood at 126, five wickets down.

from his hurt) and Lethbridge, again faced the bowling of Jackson and Mann. The latter sen down a maiden, and the first scoring achieved was a single run by Arthur off Jackson, which his partner immediately followed up with similar stroke of the same bowler. Arthur then scored two, still off Jackson, but the remaining balls of the over were upproductive of reus. Play seemed to go on rather slowly for while after this, but still by ones and twos four hits by Lethbridge, and a two by Arthur, carried the total up to 150. At 154, another change of bowlers was tried. Dow replaying Mann at the far end, and the very first ball of the newcomer was played by Lethbridge into the hands of A. E. Lanning, the wicket keeper. 54.6.15. A. G. Word, the next man in, commenced to score at once by making a single off Dow, in which he was promptly imitated by his partner Arthur. At this stage Moule took over the bowling from Jackson at the Pavillon end. but with only moderate success; for Arthurscored a couple off his very first delivery. The next over (Dew's) was distinguished by the dismissal of Arthur, which was effected by one of the most brilliant catches ever made on the Club Ground The butsman sent a high full up, which Wallace, in the long held, had quite a good run to secure. But he did secure it smidst the hearty applicase of the spectators and Articur retired with a wellmade 26 to his credit. Beyon wickets down. The Rov. G. R. Vallings succeeded, but was not long in before he lost his partner Ward, who was caught behind the wickets by A. E. Lenning off Dew, 167.8.2. Captain Dyson, the newcomer at once mude three off Moule, but the next ball of the latter was a fataloue for Hyson's partuer, Vallings, who was caught by Jackson at mid off. 1719.6. Davies, the last man in, was caught by Dew off Moule whon he had made 8 Fone, and the innings closed at 2.55 p.m. for 179, At 3.15 p.m. A. E. Lianning and W. H. Moule next got Lethbridge with a four off Jackson, and in the same bowler's away for three, but he was unable to score off mext over (Mann having sent down a " maiden." Lowson's succeeding over, which proved a lin the mountime) Dyson sent the leather away muiden. The heat in the early part of the day was simply stiffing, but shortly after the interval for tiffin a brief but vary welcome squall came down which cooled off things considerably. The attendance was even larger than yesterday and the sport was followed with the utmost enthusiasm. The arrangements were again admirable, everything was well managed and everybody concorned was loudly praised. Play was pretty fair, the fielding, particularly of the Shanghai eleven, being simply perfect. Details At 11.10 this morning the match was resumed.

Veitch (4) and Jackson (0) the two not-outs taking up play where they left off last evening. against the bowling of Lethbridge and Lowson. It will be remembered that when stumps were drawn yesterday Shanghai had made 134 for 7 wickets, and Hongkong 179. At the outset this morning play was slow and wary, the first over sent down by Lethbridge being a maiden, but in the next over (Liowson's). Veitch got one away to leg for 3 and in a few minutes after repeated the performance for 4-off Lethbridge bringing the Shangkai score up to 140. In the next over Jackson broke his "duck" with a 3 off the Bostor, which Veitch supplemented by driving the succeeding ball finely for a similar number of runs. The same batsanin then took the score to 150 by sending Lethbridge's delivery to the boundary, and then forty byes? made a welcome little addition to the Shaughai score, which was further increased on the next hall by a single scored by Vottch oil Letterridge Nothing further was done worth recording until at 158 a change of bowlers was tried Langhorne went on at the Pavilion and and with his first ball overcame Veitch's defence and took his stumps. 158.8.21 G. F. Lanning succeeded, and shortly after his arrayal three byes were cridited to Shanghai, taking the score past 160. Lanning then got Letabridge under central and sent him away for a two and a four in succession, and in the next over Jackson scored a three off Langborne At 171 Davies took over the attack from Lethpridge and Jackson snicked a single off the newcomer's second ball. At 174 Jackson gave an easy chanco in the long field, which however, the man stationed there (Ward) politely declined to accopt, and the same batsman soon afterward goored a third off Davice after which a couple by Lanning, also off Davies, brought the Shanghai total up to the level of tiong. kong, namely 179, Shanghai being still two wickets to the good. Directly after Jackson made a single off Langhorn taking the score to 180. which was posted amidst the hearty applouse of the supporters of Shanghai, the time being 1.40 a.m. Scoring still continued until at 190 Launing was missed by Mobarly (third man) oif Davies, but the chance was rather a difficult one. Captain Dyson then took over the bowling from the Pavilion end, but there was no censation in the run-getting and the spectators appliended enthusiastically when, at 11.55 a.m., 200 runs were posted on the board Lefhbridge then replaced Davies at the far end at 203. Jackson was fairly caught by Moberly off the newcomer. The retiring batsmun and made rather a thicky 22, having given at loust three chances before the one that dismissed him the score went up to 140, and then a couple of was accepted. Shaughai's last man, Cumming, then joined Lanning, but the partnership die not last long, Lanning going out 1-b.w. before Cumming had an opportunity of doing suything, and the innings thus closed, at 12.05 p.m.

of the Canton river; in fact it is of daily occurrence. One of the most daring cases happened on the 29th September at a place called Chu-tanshan, just below Kumohuk, on the West River. Three launches were attacked, the first one being Wo Shing, After overcoming the orew of this launch the pirates used her to attack the other two, the Kirong Fook and Kiogna Sun. All three belonged to the same Company and were plying between Canton and Chuisha, in Sunning District. The pirates made good use of all the firearms found on board the first named vessel and wounded several of the crewcapturing both the others, plundering all the passengers of overything of value, and making good their escape with all the booty

Piracy of the delta rivers is very much on the increase, especially at the above mentioned place, which has always been a perfect nest of bad characters. The Authorities at Conton have been petitioned many times to re-establish the military camp or guard at this place, Chutaushem, but all to no effect. A deaf ear is turned to any scheme for the security of life

and property. Steam launch owners are forced to bribe and also to employ one on each vessel in order to protect them from others. They speak of him as "our pirate," the same as they would of the compredere or hilbt.
